

## Dear Partner of the West Nashville Dream Center,

The last five years we have fine-tuned our programs and resources and do the best we can to empower and protect the people in our community. In April of 2017 we became our own 501(c)3 non-profit organization, which both gives us the opportunity to explore deeper the mission that God has called us to in our community and enables us to continue to meet the ongoing needs of our neighbors. On any given day we are on the streets engaging with families, and when a need arises we are the first ones to respond. We nourish the hungry and shine a light of hope in every corner where there is possible darkness. We believe the role the West Nashville Dream Center plays in the surrounding community is vital to the safety and sustainability of the families living here.

**June 30th will mark the final day at our current location, 4007 Delaware Avenue. We have been under a lease agreement for the past five years that, as of this summer, will no longer be available to us. The good news is the West Nashville Dream Center has never been about a building; just people. We are excited about the ability to grow and create new opportunities for our programs.**

Our ministries will continue to function at full capacity and we need your support in this season now more than ever. We are working tirelessly to secure our permanent home in our current neighborhood. More than anything, we are committed to the people we serve. As we continue to flesh out the details of what our new home looks like, we ask for your support through prayer, volunteerism, and your finances. We are truly depending on your assistance and generosity during this time. Being *anchored* is a commitment to remain firm even in the storm. We believe if we remain *anchored* in our community and do the work God has called us to, we will receive the honor of seeing miracles happen and our community's dreams come to fruition.

We ask that you pay close attention to our social media channels and any email communications you may get from us in the coming weeks, as we will have some exciting announcements for you pertaining to the future of our physical location.

Thank you for your consideration and continued love for the West Nashville Dream Center community.

TJ Fletcher / Community Development Director/Acting CEO / West Nashville Dream Center
